Title: USB-to-Serial Adaptors - DS1000/DS2000

The DS-Series Update Utility Version 02.02.03 provides enhanced support for USB-to-Serial Adaptors with Windows XP and Windows 2000. The following devices were tested for compatibility:

- IOGear GUC-232A
- MCT U232-P9
- Targus PA070

When using these adaptors, be sure to use the drivers that were packed with the adaptor. *Do not* use the "generic" Windows drivers.
